INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Decision Science Research Institute, Inc. dba Decision Research Eugene, Oregon

Report on the Financial Statements

We have audited the accompanying financial statements of Decision Science Research Institute, Inc. (Decision Research), a nonprofit organization, which comprise the statements of financial position as of March 31, 2020 and 2019, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of Decision Science Research Institute, Inc. as of March 31, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of Decision Science Research Institute, Inc. taken as a whole. The Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and is not a required part of the Basic financial statements. Such supplementary financial information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2020, on our consideration of Decision Research's internal control over financial reporting and on our tests of compliance with certain provisions of laws, regulations, contract, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Decision Science Research Institute, Inc.'s internal control over financial reporting and compliance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED MARCH 31, 2020 AND 2019

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Decision Science Research Institute, Inc. dba Decision Research (Decision Research) is an independent, nonprofit research institute, dedicated to research and education in the behavioral, social, and decision sciences. Its main source of funding is through federal, state. and private grants and contracts. Decision Research is subject to regulatory action surrounding these grants and contracts.

Decision Research was incorporated under the laws of the state of Oregon with the purpose of providing charitable, scientific, and educational research.

Basis of Presentation and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Classification of Contributions and Net Assets

The accompanying financial statements have been prepared in accordance with the Not-for-Profit Entities Topic of FASB Accounting Standards Codification (ASC) Section 958. On August 18, 2016 the FASB issued Accounting Standards Update 2016-14, Not-for-Profit Entities – Presentation of Financial Statements of Not-for-Profit Entities. The update addresses the complexity and understandability of net asset classifications, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses and investment return. ASC Section 958 requires the organization to present its net assets and its revenue and gains (losses) based on the existence or absence of donor-imposed restrictions. ASC Section 958 also provides enhanced disclosures about endowment funds, both donor-restricted and board designated. Decision Research adopted this guidance as of March 31, 2019 using the retrospective method. Net assets and revenues, expenses, gains and losses are classified based on the existence or absence of donor restrictions as follows:

Net Assets Without Donor Restrictions – Net assets available for general use and not subject to donor restrictions. Included in this classification are board designated funds and property and equipment, net of accumulated depreciation.

Net Assets With Donor Restrictions – Net assets that are contributions subject to donor-imposed restrictions whether by time or purpose.

Cash and Cash Equivalents

Cash consists of cash maintained in checking accounts, savings accounts, and money market accounts with regional west coast financial institutions insured by the Federal Deposit Insurance Corporation (FDIC). At times, these deposits may exceed FDIC insurance limitations.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED MARCH 31, 2020 AND 2019

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Grants and Contracts Receivable

Grants and contracts receivable consist of amounts that are due from government agencies, foundations, nonprofit organizations, and private companies. Funding sources are geographically disbursed throughout the United States of America, with nominal amounts arising from outside the country. Management believes all receivables are fully collectable; therefore, there is no allowance for uncollectable amounts.

Fixed Assets

Furniture and equipment are recorded at cost. Donated properties are recorded at their estimated fair market value on the date of gift. Expenditures for maintenance and repairs are charged against income, while renewals and betterments are capitalized. The cost and accumulated depreciation of property sold or otherwise disposed of are eliminated from the accounts, and the resulting gains or losses are reflected in revenue and expenses.

Depreciation is provided over the estimated useful lives, ranging from 3 to 40 years, of the related assets using the straight-line method. The capitalization threshold is \$5,000.

Revenue Recognition

Decision Research recognizes revenue on cost reimbursement grants and contracts as qualified expenses are incurred, subject to the amount authorized in the agreement. Unreimbursed grant or contract expenses are reflected in the financial statements as receivables and revenues. Cash receipts related to future grant or contract expenses are recorded as deferred revenue in the statements of financial position.

Indirect Rate Calculation

Indirect costs are allocated proportionally on the basis of modified total direct costs (total direct costs excluding capital expenditures, participant support, and subcontract costs exceeding \$25,000 per subaward).

Income Taxes

Under the provisions of the Internal Revenue Code Section 501c (3) and applicable state law, Decision Research has been granted exemption from state and federal income taxes. Decision Research has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

Cash and Cash Equivalents

Cash equivalents are stated at cost and totaled \$409,597 and \$240,469 at March 31, 2020 and 2019 respectively.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED MARCH 31, 2020 AND 2019

Note 2. Commitments and Contingencies

Grants and Contracts

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed costs could become a liability of Decision Research. Management believes that unallowable costs, if any, would not be significant or material.

Operating Lease

The lease for office space is a month to month lease.

Rent expenses associated with the above lease for the fiscal years ended March 31, 2020 and 2019, were \$95,468 and \$88,000, respectively.

Note 3. Liquidity Disclosure

The schedule below reflects Decision Research's financial assets as of the statement date, reduced by amounts that are not available for general use due to contractual or donor-imposed restrictions within one year of the statement of financial position date. Amounts that are not available also include board designated amounts that could be utilized if the board of directors approved the use.

Financial assets at year-end (cash plus receivables)	\$520,291
Less those unavailable for general expenditures within one year, due to:	
Board designations for future projects	(114,165)
Financial assets available to meet cash needs for general expenditures	
within one year	\$406,126

Decision Research is partially supported by government grants which have restrictions. The restrictions are related to programs designated by the grants. These restrictions are typically settled within the fiscal year in which the money is received. The Board of Directors is responsible for liquidity management. Decision Research has policies that govern the management of financial assets so that the monies are available to meet general expenditures, liabilities and other obligations as they become due. Excess funds are invested in short-term CDs and money market funds which are easily accessed in the case of unexpected cash flow needs.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED MARCH 31, 2020 AND 2019

Note 4. Employee Retirement Plan

Decision Research maintains a defined contribution pension plan for substantially all permanent employees. Employees are 100 percent vested in employer contributions. Effective January 1, 2016, Decision Research contributes an amount equal to 6 percent of compensation as a profit-sharing contribution, and will make safe-harbor matching contributions equal to 100 percent of employee salary deferrals up to 3 percent of compensation, plus 50 percent of salary deferrals greater than 3 percent, up to and including 5 percent of compensation.

Employer contributions to the plan for the fiscal years ended March 31, 2020 and 2019, were \$44,710 and \$16,340, respectively.

Note 5. Concentrations

During 2020, Decision Research received grant revenue of approximately 60 percent from four grant contracts. During 2019, Decision Research received grant revenue of approximately 51 percent from four grant contracts.

Note 6. Donor Restricted Net Assets

Donor restricted net assets consists of Understanding and managing 21st Century Risks in the amount of \$132,488. Board designated net assets consists of \$114,165 for future projects.

Note 7. Subsequent Events

Management evaluates events and transactions that occur after the statements of financial position as potential subsequent events. Management has performed this evaluation through the date of the independent auditor's report.

Decision Research's operations may be affected by the recent and ongoing outbreak of the coronavirus disease 2019 (COVID-19) which was declared a pandemic by the World Health Organization in March 2020. The ultimate disruption that may be caused by the outbreak is uncertain; however, it may result in a material adverse impact on Decision Research's financial position, operations, and cash flows. Possible effects may include, but are not limited to, disruption to Decision Research's funders and revenue, absenteeism in Decision Research's labor workforce, unavailability of products and supplies used in operations, and a decline in value of assets held by Decision Research.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Executive Board
Decision Science Research Institute, Inc.
1201 Oak Street, Suite 200
Eugene, Oregon 97401

We have audited, in accordance with the auditing standards accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of Decision Science Research Institute, Inc., which comprise the statements of financial position as of March 31, 2020, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to financial statements, and have issued our report thereon dated November 18, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Decision Science Research Institute, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of Decision Science Research Institute, Inc.'s internal control. Accordingly, we do not express an opinion of the effectiveness of Decision Science Research Institute, Inc.'s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of Decision Research's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weakness. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Decision Science Research Institute, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Decision Research's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Decision Research's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

	OVER COMPLIA	R EACH MAJOR NCE REQUIRED
	BY THE UNIFO	ORM GUIDANCE

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

The Executive Board
Decision Science Research Institute, Inc.
1201 Oak Street, Suite 200
Eugene, Oregon 97401

Report on Compliance for Each Major Federal Program

We have audited Decision Science Research Institute, Inc.'s (Decision Research) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Decision Research's major federal programs for the year ended March 31, 2020. Decision Research's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and guestioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Decision Research's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing* Standards, issued by the Comptroller General of the United States; and the audit requirements of the title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Decision Research's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Decision Research's compliance.

Opinion on Each Major Federal Program

In our opinion, Decision Research complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended March 31, 2020.

Report on Internal Control over Compliance

Management of Decision Research is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Decision Research's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Decision Research's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

DECISION SCIENCE RESEARCH INSTITUTE, INC. NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Year Ended March 31, 2020

1. Purpose of Schedule

The accompanying schedule of expenditures of federal awards (the Schedule) is a supplementary schedule to Decision Research's financial statements and is presented for purposes of additional analysis. Because the Schedule presents only a selected portion of the activities of Decision Research, it is not intended to and does not present either the financial position, changes in net assets, or the revenues and expenditures of Decision Research.

2. Significant Accounting Policies

Reporting Entity

The reporting entity is fully described in Note 1 to Decision Research's financial statements. The Schedule includes all federal financial assistance programs obtained by Decision Research for the fiscal year ended March 31, 2020.

Basis of Presentation and Accounting

The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Receipts and expenditures of federal awards are accounted for under the accrual method of accounting. Revenues are recorded when earned or, in the case of grants where expenditures are the prime factor for determining eligibility, when the expenditure is made. Expenditures are recorded when a liability is incurred.

Federal Financial Assistance

Pursuant to the Uniform Guidance, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance, or direct appropriations. Accordingly, nonmonetary federal assistance, including federal surplus property, is included in federal financial assistance and is reported on the schedule (if applicable). Federal financial assistance does not include direct federal cash assistance to individuals. Solicited contracts between Decision Research and the federal government for which the federal government procures tangible goods or services are not considered to be federal financial assistance.

Major Programs

The Uniform Guidance establishes criteria to be used in defining major programs. Major programs are those programs selected for testing using a risk-assessment model, as well as certain minimum expenditure requirements, as outlined in the Uniform Guidance Subpart F 200.518. Programs with similar requirements may be grouped into a cluster for testing purposes.

3. Indirect Cost Rate

Decision Research did not elect to use the ten percent (10%) de minimis indirect cost rate of modified total direct costs allowed under the Uniform Guidance.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended March 31, 2020

SECTION I - SUMMARY OF AUDIT RESULTS

Financial Statements

Type of auditor's report issued: Unmodified Internal control over financial reporting: Material weakness(es) identified?
